ABOUT US

Computer & Skill Development Centre(CSDC) is a national programme of information technology education and development. A unit of Computer & Skill Development Centre, Registered as Autonomous Body, Under Govt. Of West Bengal based on Central Govt. TR Act, 1882, Govt. Of India (Registration No- IV-06888). CSDC is also registered Empaneled under NPS - Planning Commission, Govt. Of India & Empaneled Under CSW, Govt. Of India, Registered Under Trade Mark Registry Act,1999, Govt. Of India, Registered Under MHRD (CR Act), Govt. Of India.

Computer & Skill Development Centre is an ISO 9001:2008 Certified Organization by Joint Accreditation System UNITED KINGDOM (UK) for Quality Management System. The Institute has also filled application and Trade Marks, Govt. of India.

Computer & Skill Development Centre is the new lighting of computer education in India. The great scholars realized to make each Indian's life fulfilled with prosperity and improvement, progress through computer education. Computer & Skill Development Centre is pioneer of making their attempt real. On the Golden highway of twenty first centuries to make people united for formation of new India the first step Computer & Skill Development Centre is at your doorstep. We are very happy to introduce this golden opportunity. Computer & Skill Development Centre has come with all packages that are needed. It is about to make a new area in computer education.

Objective of the programme

In present time, some big Institution run their certificate/ diploma programme in higher charges, due to which the lower and middle class families of our society cannot afford the load of their charges. Our mission studied their theme properly and decided to provide better higher technical education in computer for every sector of society in affordable charges all over India.

CSDC FACULTY

CSDC faculty are full time, Qualified and friendly professionals, always there to guide the students, specially trained to understand student's psychology, internalize the knowledge uniformly and put across difficult to understand concept with ease, thus making students learning ventures smooth and easy. The whole training time is equally divided into theory and practical sessions. A part from regular computer time, students are allowed to utilize unlimited machine time to exercise their mind, boost their creativity and increase their level of curiosity. This builds-up their self-confidence, allows them to explore the wide horizon of computer and gradually shapes them into confident professionals.

LIBRARY INFRASTRUCTURE

The CSDC centres have a well-stocked library with a collection of around 600 volumes comprising functional Programming, Parallel Processing System Database Management System, Client Server Computing, Computer Networks, Operating System, Multimedia, Object Oriented Programming etc.

The library subscribes to collection of Indian and foreign journals and periodicals in the functional and general areas thus maintaining latest espouses to the student and helping them keep abreast of the latest developments in the I.T. industry.

Computer & Skill Development Centre

UK Accredited an ISO 9001: 2015 Certified

Autonomous Body | A National Skill Development Programme of Information Technology Education & Development.

ICHAPUR: 9883189911   SHYAMNAGAR: 7439105319

COMPUTER LAB

CSDC Centres have a good computer lab. The computer lab contains high configurations computer networked with WI-FI zone.

OTHER INFRASTRUCTURE

Excellent classrooms, other audio-visual teaching learning devices and vast playground contribute to interactive teaching learning environment and to overall development of the student.

INTERACTIVE LEARNING ENVIRONMENT

The greatest advantage of CSDC lies in its interactive approach-a concept which stimulates spirit of innovation and self-achievement. The courses give the students, freedom to develop their spirit of innovation and explore the professional world of computers with the guidance of CSDC experienced faculty.

1.   Personalized teaching methodology.;

2.   Extensive hand on approach.

3.   Video Audio Learning System.

4.   Extra classes in career orientation and self-development.

After the completion of each module, the performance of the students is monitored through regular tests. Measure are taken to rectify their mistakes and improve their skills.

All lectures are designed and updated periodically to incorporate technological advancements. Lectures are planned in such a way that they enable the students to appear successfully in the job market and handle interviews confidently.

THE PLACEMENT CELL

The placement cell of CSDC is responsible for coordinating the placement activities of the students of the institute. A placement coordinator from the faculty heads the placement cell with committee members representing the students. Almost all the placements activities are organized and coordinated by the students under the able guidance of faculty.

PLACEMENT PROCEDURE

An early intimation of the intended schedule would facilities arrival at mutually convenient dates. The company may deliver Pre-Placement talk either earlier or before the campus requirement program itself. At the campus the company may conduct a written test and or interview etc. Job offers or responses may be routed only through the placement coordinator. In some cases, if a company wishes to conduct off campus recruitment as well, they may provide the travailing allowances for such outstation selection.

CHAIRMAN MASSAGE

Information Technology has become a fastest growing Industry in today's scenario which is providing thousands of jobs to well trained professionals. India has achieved a terrific growth in this field and is being considered as a potential I.T Super Power in the world. Information Technology is providing the upcoming future that will change every face of human existence.

In order to produce Information Technology Professionals, I.T education requires a high-quality competence and infrastructure. Today, new packages, newer versions of current software and new technological tools are being adopted by the trade and industry periodically. The education therefore, must catch up with these developments well in time so that I.T students do not face the problem of obsolescence. Computer & Skill

Computer & Skill Development Centre

UK Accredited an ISO 9001: 2015 Certified

Autonomous Body | A National Skill Development Programme of Information Technology Education & Development.

ICHAPUR: 9883189911   SHYAMNAGAR: 7439105319

Development Centre feels the underlying concepts of new technology and tools along with reasonable skills be delivered to the students before they go out in the industry.

Thus, in a very fast changing technical scenario, concept and practical based education becomes quite important as against tool-based education. Technological changes also demand that institutions must consider the market scenario, and adjust the contents and delivery of education matching the expectations of the business houses.

Education, situation and adaptation these three subjects are integrally involved with human life. The only mission of education is to adapt people in changing society. Only education can help people to achieve their certain target in moving society. As the target is to get the ultimate success, Computer & Skill Development Centre has reached with the new message of to be eligible of being successful. The only vision of this program is universal computer literacy. As a result, in 2025 the rate of computer literacy will reach up to 60%-70% in India. So our request is to all let us take a step ahead towards a bright golden future with Computer & Skill Development Centre.

I am sure our students can meet any demand & challenges that the employer may have on them. I wish them great success in all their Endeavour's and quest for a better tomorrow.

MISSION

To be the single source for quality assurance in computer education among the nation's non-formal institutes, after turning out competent IT professionals in large numbers, CSDC reach is now being extended to all regions of the country.

VISION

To be the leader in the development of industry-oriented quality education and training and be the country's premier Institution for examination and certification in the field of Information Technology Education & Development.

Vision Implementation Journey

Identifying the nation's best potential and nurturing them into well-groomed professional.

- To promote Computer Literacy to every nook and corner of the society at nominal fee.
- To extend financial flexibility in terms of scholarships and stipends to deserving candidates.
- To bring down Computer Education to the grassroots level.
- To provide placement assistance to deserving candidates.
- To eradicate anything, like Computer Phobia.

To work out specific courses designed as per current job scenario, in order to provide a well trained workforce to the corporate sector.
